Hi Yen-Vy:

I reviewed the revised Supplemental RI report and everything looks fine. Thank you for addressing our comments. EPA will consider this the final version of this deliverable.

One thing that may be helpful for us in the future, is that when you revise a deliverable document based on EPA comments, it you can include a brief response to comments, that would be much appreciated. That way we don't need to hunt through the document to identify what or how changes were made. For example, on my first specific comment regarding the use of the term "plume", I noticed that you removed the word from the entire document rather than create a plume map. I don't really have problem with this, but it would be nice to know the rationale for this decision. A very brief response to comments would clarify that and speed up review on our end.

Thank you

Rob

Subject: Former Smitty Conoco #140, Toppenish, WA - Final Suppl RI report

Good morning

Please find attached for your review an electronic version of the revised and final Supplemental RI report for the former Smitty Conoco #140 facility (EPA Facility ID No. 4260087), located in Toppenish, WA. This revised report incorporated your edits/comments and expanded on the conclusion and recommendations, as necessary.

Thank you for your technical comments on this report. A hard copy of it will be mailed to you. Please do not hesitate to contact me at 360-352-9835 should you have question or require additional information.

Sincerely,
Yen-Vy
